

Harlequin Flexity™ Plus

Harlequin Flexity Plus is a cost-effective, self-install sprung floor panel system, designed for permanent or semi-permanent installation. Panels are laid in a brickwork fashion onto the sub-floor, so that cross joints do not coincide. The panels join together by a special tongue and groove, which are glued together for permanent installation or fixed using woodscrews at predetermined points along the tongue and groove for a semi-permanent solution.

Harlequin Flexity Plus can be installed by anyone with basic DIY skills and full instructions are provided. It's a cost-effective choice, helping to reduce the injury risks associated with dancing or performing on a hard, unsprung floor.

Harlequin Flexity Plus is finished by choosing an appropriate Harlequin vinyl performance floor from our range for a semi-permanent (portable) floor and an engineered wood finish on a permanent floor.

Specification guide

Permanent or Portable	Permanent or Semi permanent
Floor panel size	1.125m x 2.250m
Dance surface size	1.089m x 2.214m
Minimum floor thickness <i>(before inclusion of chosen finish)</i>	37mm
Minimum floor weight <i>(before inclusion of chosen finish)</i>	11.85kg/m ²
