"Colour brings joy"

Rasch Textil presents the classic product textile wallcovering in the LETIZIA collection in an entirely new look. With a great passion for craftsmanship and the art of thread laying, our studio has succeeded in creating unique new developments:

Due to the rhythm of multi-coloured viscose yarns, the semi-plain STRIÈ has a strong textile character and gently alternating effects. The TWISTED block stripe is also a true innovation: Here, 2 colours were twisted together, their fascinating interplay reminiscent of the plumage of a bird. The semi-plain SOFT, which is available in white, cream, light grey and a light mauve, has a delicate pinstripe look. In the colour groups of the collection, the neoclassical ornament PROUD and the pomegranate blossom FANTASIA are perfectly framed in neo-baroque style: Highlights are rust and red shades in combination with grey, indigo blue with pink and petrol as well as lime and sage green with pink.

Lilac and violet nuances with cream, pink in combination with grey as well as sandy and earthy colourings complete the colour concept of the 40-sheet wallcovering collection.
