nature & geometry

Abstract art and geometric shapes, fine shrubs and rough natural stone combined with a sophisticated interplay of matt gloss effects and calm, subtle colours – this is how the **“Composition”** collection is arranged to create its distinctive effect.

These wallcoverings provide the perfect basis for creating a home design of timeless clarity. The use of muted colours creates an inviting atmosphere within your own four walls that is comfortable and balanced, creating a harmonious, soothing effect that is conducive to relaxation. These non-woven wallcoverings do not dominate the room, but consistently offer a harmonious symbiosis with other colours and home accessories.
