FIESTA

“The more you celebrate your life, the more there is to celebrate in your life!” These wise words come from the legendary American TV presenter Ophra Winfrey. To really celebrate this motto of life, every home should also be festively decorated. Of course, this works best with wonderful non-woven wallcoverings from our Fiesta collection – because the name "Fiesta" is the order of the day.

Shiny ornaments, glamorous palm leaves, sparkling plains, glittering flowering stands, radiant waves, shimmering textile textures... here, there is nothing left to be desired.

With soft colours such as creamy white, beige, dusty pink, sky blue and light grey, every room has a particularly homely ambience. Bold colours such as gold, anthracite and black, as well as bright colours such as orange, pink, royal blue and turquoise green, bring excitement and extravagant dynamism. So: Start with wallpapering and celebrate your life!
