Filigrano

Stitch by stitch, seam by seam – this is how these new wall coverings have found their way into our range. With delicate fabrics and a multitude of filigree details, this collection reflects the very finest in wall couture. The embroidered designs appear to be hand-crafted – whether as baroque ornaments, geometric patterns or fine lines. These smart wall coverings are discreet however, allowing furniture and home accessories to take centre stage. With gentle hues of blue and beige, cream and powder they create a wonderfully pleasant setting that invites people to linger, relax, enjoy – and simply feel good.

Technical data:
