Stories

“Once upon a time...” These words are often used to start the most beautiful stories. And this is where the story of the ‘Stories’ collection begins – a magical collection of digital prints (2.80 m x 2.00 m) and wallpaper for the little ones. Astrid and Claudia, the two founders of Studio Onszelf in Amsterdam, have once again created superb wall designs.

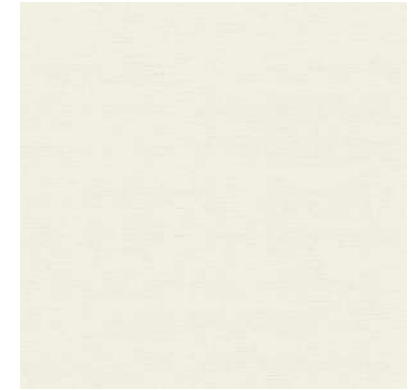

Enchanted fairytale worlds, a summer bathing paradise, dinosaurs from a bygone era, the promise of adventure in space, a beautiful rainbow, breathtaking underwater worlds, insights into the various habitats of different animals ... all this and much more provides the fabric for fantastic stories. Make every child's bedroom a fabulous source of stories with this wonderful wall decoration. It offers the entire range of colours from the paint box. An inviting, feel-good atmosphere is created with soft colours such as rosé, beige and sky blue as well as cheerful tones such as strawberry red, turquoise blue and grass green.
